

KRISHAN MOHAN

Frontend Architect | 10+ Years | React, Next.js, TypeScript, GraphQL | AWS Certified

New Delhi, India | +91-9873429311 | krishan101090@gmail.com | [linkedin.com/in/krishan-m-4755239b](https://www.linkedin.com/in/krishan-m-4755239b)

PERSONAL STATEMENT

Frontend Architect with **10+ years** of experience designing and shipping scalable, AI-integrated web platforms for global enterprises across alternative assets (Preqin, acquired by BlackRock), management consulting (McKinsey & Company), banking, and digital media. Specialist in **React 18+, Next.js 14+ (App Router & Server Components), TypeScript, GraphQL, Tailwind CSS**, micro-frontend architecture, and design systems. Hands-on experience **integrating LLMs (OpenAI, Claude) and building AI-powered product UIs**, with practical exposure to extending Node.js and Python services for full-stack delivery. **AWS Certified Solutions Architect**. Early adopter of AI-paired engineering workflows (Cursor, Claude, Spec-Kit). Open to roles across the UK, Ireland, and remote European positions.

Selected achievements: 30% revenue growth at Operabase • Led micro-frontend migration at Preqin (BlackRock) • Built Credit Bureau Analyser for banking domain • Founding frontend engineer for Rent It Bae (later acquired Flyrobe)

KEY SKILLS

Frontend Core: React 18+, Next.js 14+ (App Router, Server Components, Server Actions), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, GraphQL, REST

State & Data: Redux Toolkit, Zustand, TanStack Query (React Query), Redux Saga, SWR, GraphQL (Apollo Client)

Architecture: Micro-Frontends, Module Federation, Server-Side Rendering (SSR), Static Site Generation (SSG), Design Systems, Atomic Design, Component Libraries (shadcn/ui, Material-UI), Performance Optimisation, Web Vitals, Accessibility (WCAG 2.1 / a11y)

AI & LLM Engineering: OpenAI APIs (GPT-4/5), Claude API, LangChain, Vector Databases (Pinecone), Retrieval-Augmented Generation (RAG), Streaming UIs, Prompt Engineering, LLM Integration in production

AI-Paired Development: Cursor AI, Claude Code, GitHub Copilot, Spec-Kit, v0.dev — daily use for accelerated, test-covered delivery

Backend (Working Knowledge): Node.js, Express.js, Hapi.js, Python, REST APIs, GraphQL APIs, WebSockets

Data & Caching: MySQL, PostgreSQL, MongoDB, Redis, Apache Spark, Iomete (Data Lake)

Cloud, DevOps & Testing: AWS (Solutions Architect — Associate), Vercel, Docker, CircleCI, GitHub Actions, Webpack, Vite, Turborepo, Nx Monorepo, Jest, Vitest, Playwright, Cypress, React Testing Library

Observability & Analytics: Sentry, Datadog, OpenTelemetry, Google Analytics, Metabase, A/B Testing, Feature Flags, Search Engine Optimisation (SEO), Lokalise (i18n)

Payments & Auth: Stripe, Chargebee, OAuth 2.0, JWT, FingerprintJS

EMPLOYMENT HISTORY

Senior Software Engineer, McKinsey & Company (Periscope) — Gurugram, India Jul 2025 – Present

Pricing & Discount Optimisation Platform — Engagement with a Fortune 100 Global Technology Client

- Architecting modular **React + Next.js + TypeScript** frontend for a high-stakes pricing & discount optimisation platform powering pricing decisions across the client's global B2B and B2C technology business — supporting multi-billion-dollar revenue and channel operations
- Designing complex pricing workflows, discount simulations, and analytics dashboards handling large-scale datasets with sub-second performance
- Extending Node.js services and Python data pipelines where frontend features require backend changes
- Collaborating with data engineers on Apache Spark and Iomete data lake to surface ML-driven analytics in the UI
- Building **AI-powered UI features** — embedding LLM-driven recommendations, natural-language pricing queries, and explainable ML insights into the user experience
- Adopted **AI-paired engineering workflows** using Cursor, Claude, and Spec-Kit to accelerate feature delivery and maintain production-grade quality at scale
- Ensuring **WCAG 2.1 accessibility compliance** and Core Web Vitals targets across all customer-facing surfaces

Senior Frontend Developer, Arts Consolidated — Denmark (Remote)

Oct 2022 – Apr 2025

Operabase & CueTV — Global Performing Arts Platforms (130+ countries)

- Drove **30% revenue growth** at Operabase through SEO optimisation, paywall redesign, and conversion-focused onboarding flows
- Architected fingerprint-based session validation (FingerprintJS) and a secure Stripe + Chargebee paywall, reducing subscription churn
- Migrated legacy frontend to a **React + Next.js micro-frontend architecture** with a shared component library serving both Operabase and CueTV
- Led multi-language localisation (Lokalise) to expand global accessibility across performing arts markets
- Improved Core Web Vitals and Lighthouse scores through SSR optimisation, code-splitting, and image optimisation
- Built analytics pipelines using Google Analytics + Metabase, improving product decision-making by **20%**

Senior Frontend Engineer, Preqin (acquired by BlackRock) — Bengaluru, India

Nov 2020 – Oct 2022

Global leader in alternative assets data — private equity, hedge funds, ESG

- Led migration of legacy monolithic frontend to a **React-based micro-frontend architecture**, enabling independent deployments across multiple product teams
- Built data-rich dashboards for **Deals, Fundraising, and ESG** modules used daily by thousands of institutional investors and fund managers globally
- Established a shared UI library and design tokens consumed across multiple applications for visual and functional consistency
- Integrated GraphQL + Redux Toolkit for real-time KPI visualisations across complex datasets

Senior Frontend Developer, McKinsey & Company — Bengaluru, India

Oct 2019 – Nov 2020

Banking & Lending domain — Credit Risk and Data Analytics Platforms

- Built a **Credit Bureau Analyser** — internal tool that ingests and analyses credit bureau reports to support underwriting and risk assessment workflows
- Developed UI for a centralised data lake platform consolidating customer, transactional, and credit data for downstream banking insights
- Designed reusable React component libraries powering multiple internal banking products
- Delivered full-stack features using Node.js (Hapi.js) + MySQL, owning APIs end-to-end where required

Senior Associate, Experience Technology, Publicis Sapient — Noida, India

Oct 2017 – Aug 2019

- Delivered enterprise-scale digital experiences for global clients including Keurig (e-commerce supporting 60+ brands)
- Built responsive frontend applications using React, Redux, and Webpack; optimised performance through code-splitting and lazy loading
- Mentored junior developers on React best practices and modern frontend tooling

UI/UX Developer, Pronto IT Labs (Building Rent It Bae) — New Delhi, India

Feb 2016 – Oct 2017

- Owned **end-to-end frontend development** for Rent It Bae, a premium fashion rental platform, during its founding phase
- Built e-commerce flows for product catalogue, search, booking, payment, and order management
- Note: Rent It Bae later acquired competitor Flyrobe (2019) and was featured on Shark Tank India (Season 3, 2024)

CERTIFICATIONS

AWS Certified Solutions Architect — Associate, Amazon Web Services. Issued Jan 2025, valid through Jan 2028.

EDUCATION

Master of Computer Applications (M.C.A.), Computer Science — Guru Gobind Singh Indraprastha University, India · First Division

Bachelor of Computer Applications (B.C.A.) — Guru Gobind Singh Indraprastha University, India · First Division

ADDITIONAL INFORMATION

Languages: English (Fluent / C2), Hindi (Native)

Right to Work: Currently based in India. Open to UK / Ireland / EU sponsorship and relocation.
